---

## TECHNICAL SKILLS

---

### Languages

- Experience in: C++, C#, Python, Java
- Beginning to learn: HTML, CSS, Objective-C, PHP

### Software Projects

- Developed features for a 2D platformer in C# using XNA libraries. Implemented principal save /load features as well as snap and placement features for the game builder.
- Recreated Minesweeper in C#; personal project to familiarize myself with C# and VS2012.
- Ranked in top 15% of coders in C++ and Python at CodeEval.com
- Additional project and assignment code hosted at [github.com/srussell123](https://github.com/srussell123)

## EMPLOYMENT HISTORY

---

2007-Present

**Co-Owner / Teacher, *Buzz English School***

- Began the school in 2007. Teaching students of all ages in small classes of 3 to 5
- Personally designed lesson plans for various frameworks including: Grammar and English foundations; test preparation (TOEFL, TOIEC, EIKEN, SLEP); study or travel abroad preparation; general English competency and conversational fluency; reading and writing lessons for children
- Approximately 120 students with 2 full-time and 2 part-time teachers operating in a highly competitive market; we boast the best reputation in the area and are no longer able to accept new students
